ABOUT
THE SPOOKY BEAR

The Spooky Bear is a Puerto Rico-based electronic music project rooted on trip hop, spacey dub vibes mixed with other genres and styles.

The project is guided by a teddy bear that pilots a ship through space, visiting different worlds and learning from the sounds of the universe. Space travel, visiting other planets and the longing to return back home are recurrent themes.

It attempts to take the listener to a sonic, nostalgic journey with melodies and harmonies that remind us of home, and to reflect on the paths taken to arrive to where we are now.

The Spooky Bear uses AI for its visuals. The evolution of AI image generation inspired the production of the project's music. In some ways, as technology evolves, so does the music. However, all music produced by The Spooky Bear is human created.

SOUND / INFLUENCES

Sound

• Trip-hop
• Downtempo / cinematic / spacey dub
/ reggae
• Sub-bass, analog synths, sampling

Influences

•For fans of:
• Massive Attack
• Portishead
• Burial
• Major Lazer
• Boards of Canada

Mission

To create atmospheric electronic music
that explores emotion, memory, and
inner space — allowing listeners to
project their own meaning without the
distraction of identity.

MUSIC & RELEASES

Streaming:

Spotify | Tidal | Apple Music | SoundCloud

The Spooky Bear currently has 1 9-track EP titled Liminal (8 instrumentals and one with vocals), and three singles: Set Me Free, Pressure and Addicted. Addicted is the most recent release.

Recommended tracks are "Addicted", "Pressure", "Belong Together" and "Set Me Free". Pressure has been features in BMS Radio Chicago's Top 4 Pop, Rock and Indie songs since November 2025, listed as #5 in the charts.

The self-made playlist called "The Lost Signal: Sessions" is also recommended for a great taste of the project. A YouTube visualizer experience of that playlist is also available.

THE NEW TRACK "ADDICTED"

"Addicted" is The Spooky Bear's latest single. It features dreamy synths with dub elements and nostalgic, emotive vocal melodies. The lyrics allude to being hooked on the feeling of being with someone, and losing control of emotions and feelings. The track was inspired by songs by Major Lazer, using trip hop beats.

"Addicted" is a single from The Spooky Bear's forthcoming EP titled The Lost Signal, which will feature tracks with an overall spacey dub / reggae feel.
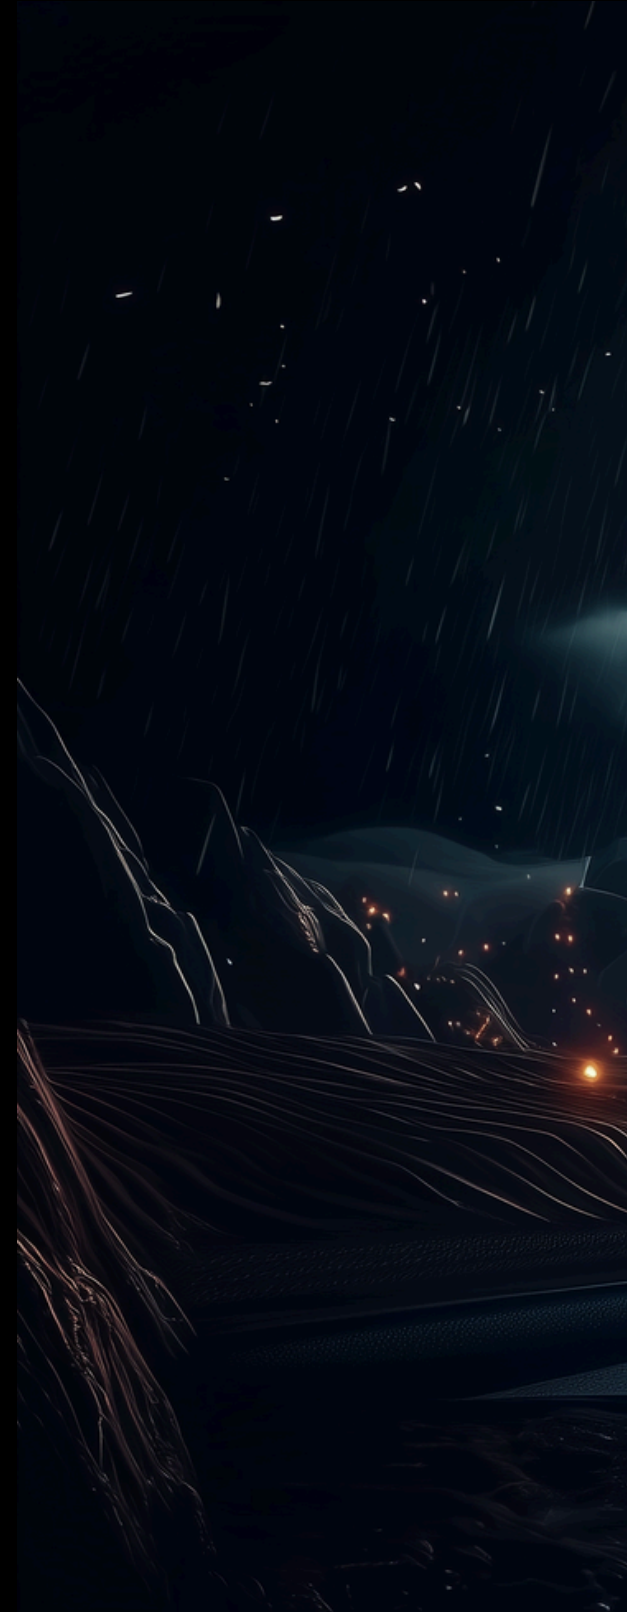

VISUAL IDENTITY

The Spooky Bear exists as a character rather than an individual, and is currently evolving to collaborate with local and international artists. The Spooky Bear's visuals emphasize mood, texture, and atmosphere over personal imagery.

USE CASES

Depending on the particular track,
The Spooky Bear would fit well in the
following:

• Night and late-drive playlists
• Cinematic and moody content
• Downtempo / trip-hop audiences
• Spacey, Dub Reggae audiences
• Editorial and atmospheric placements
